**Subject:** Gorge Dam - Chuckery Area Utilities Questions

Hi Pat – As we mentioned during the Workshop last week, GPD's topographic survey identified some structures we could use your help on identifying and confirming their use and location.

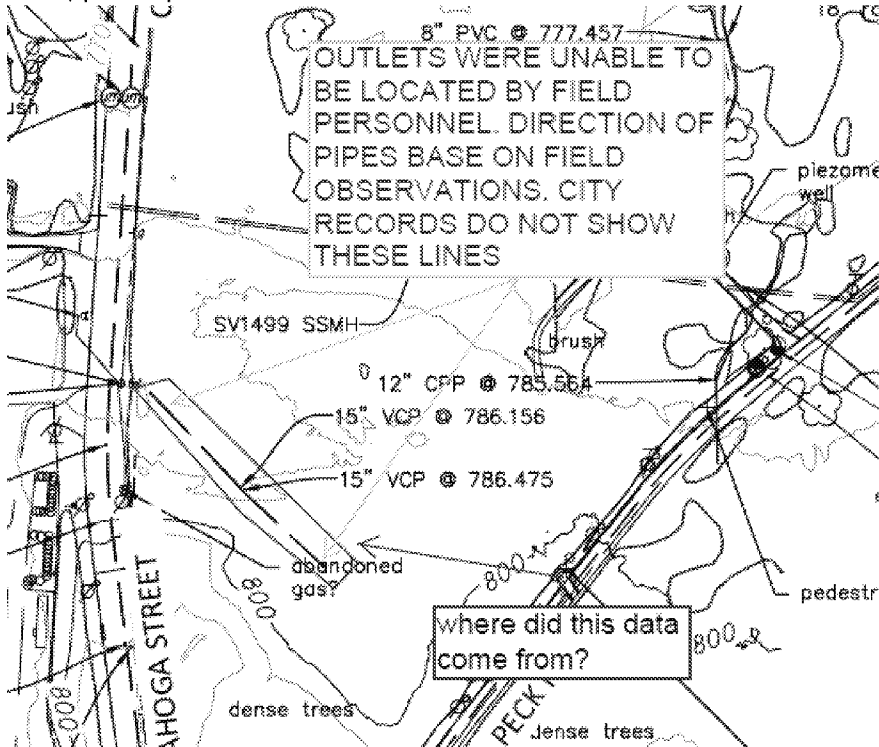

Please let us know if you have any questions or if a Skype Meeting might be helpful. We'd be happy to send out a meeting request.

Below are the items we need your help with:

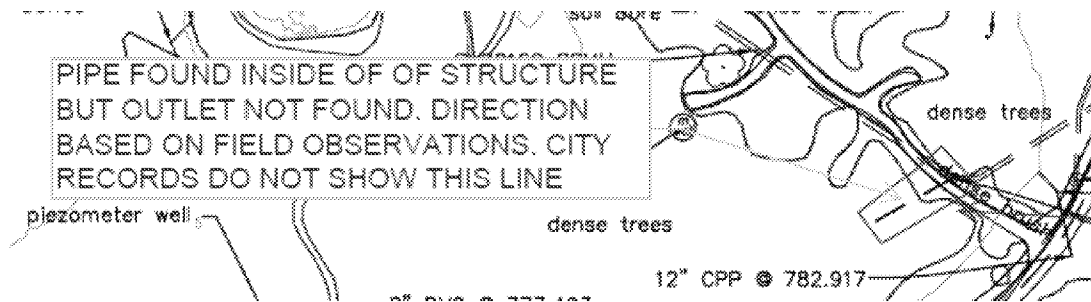

1) 15" Vitrified Clay Pipe (VCP)

Need to confirm the status, active or abandoned

Mike, please provide the coordinates for the two shots below

2) Need to verify the sewer lines at the following manhole (SV60394):

Here is a clip from COA for this area that Heather sent out prior to our workshop

Cheers!

Bill
